PROFILE AND MAIN INTERESTS

Passionate about building user-centric web applications, I bring over 15 years of experience in frontend development. Adept at crafting high-performance interfaces and mentoring junior developers, I excel in translating design visions into functional, accessible, and scalable code. I thrive in dynamic environments, contributing both technically and strategically to projects.

My expertise spans modern frontend frameworks like React, Angular, and Vue, with a strong foundation in HTML, CSS, and JavaScript. My goal is to drive innovation in the digital space, fostering best practices and embracing emerging trends.

KEY SKILLS

- Expert in HTML5, CSS3, JavaScript (ES6+), and responsive design principles.
- Proficient in React, Angular, Vue.js, and state management tools like Redux and Vuex.
- Experience with CSS preprocessors (Sass, Less) and modern build tools (Webpack, Vite).
- Knowledge of accessibility standards (WCAG) and SEO-friendly practices.
- Familiarity with backend integrations using REST APIs and GraphQL.
- Skilled in unit and integration testing (Jest, Cypress).
- Advanced version control (Git) and CI/CD pipelines.
- Team leadership and mentorship.
